- Quiz Thursday September 25th

Quiz 1

```c
#include <stdio.h>

int main(void){
        int i = -1, j = 11, k = -11;
        while( i <= 1){
                printf("%d\n", i);
                i++;
        }
        while(i<j){
                printf("%d\n", i);
                i *= 10;
        }
        while(j > 1 && k < -1){
                if(j%2 == 1 && k < -8){
                        printf("ABC\n");
                }else{
                        printf("XYZ\n");
                }
                j -= 4;
                k += 4;
        }
        printf("%d %d %d\n", i,j,k);
        i = 3;
        do{
                printf("%d\n", i);
        }while(--i > 1);

        return 0;
}
```

Output:

```
-1
0
1
2
ABC
XYZ
XYZ
20 -1 1
3
2
```
